SUMMARY

Enthusiastic AI and Data Science learner with a strong foundation in machine learning, data analytics, and statistical techniques. Skilled in Python, SQL, and Scikit-learn with hands-on experience in academic and personal projects. Passionate about solving real-world problems using data and continuously improving technical skills.

PROJECTS

CredMint – AI-Based Loan & Smart Financial Management System (Master's Project)

- Developing an intelligent financial platform to provide easy access to loans, EMI calculation, and repayment tracking with a user-friendly interface.
- Implementing AI-based financial analysis to evaluate user income, expenses, and risk profile for personalized financial planning.
- Recommending investment options such as SIPs and Fixed Deposits based on user financial behavior and goals.
- Applying secure data handling practices to ensure user privacy and financial data protection.

Task Classification System (Machine Learning Project)

- Built an NLP-based system to classify user tasks into categories such as Work, Personal, and Health using TF-IDF and Scikit-learn, with a simple interface for real-time predictions

EDUCATION

M.Sc. in Artificial Intelligence & Machine Learning (Pursuing)

2025 – Present

- GLS University, Ahmedabad

B.Sc. (CA&IT)

2022 – 2025

- Hemchandracharya North Gujarat University, Patan

TECHNICAL SKILLS

- **Programming Languages** : Python, Java, SQL , R
- **Machine Learning & Data Science**: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, NLP Basics, Deep learning Basics
- **Web Technologies** : HTML, CSS
- **Databases** : MySQL, MongoDB
- **Data Visualization Tools** : Microsoft Power BI

LANGUAGES

- English
- Hindi
- Gujarati
